

Animals.....

Already double tagged with Primary and Secondary DEFRA eartags must be fitted with a third Management tag with animal ID represented by a barcode.

Supertag T4YEE
(Single Large Eartag)

Being born and reared for export should be tagged in the normal manner with a Primary and Secondary DEFRA approved eartag. The secondary tag should be printed in management version with the addition of a barcode and visual number in the space normally reserved for self marking.

Supertag DT44E
(Primary & Secondary Combination)
