

Job Title – IT Support Technician (UK)

Are you living in the UK conscientious, motivated and with common sense. Keen to work in a Technical environment supporting IT networks, learning about RFID and Laser Marking Systems in a unique growth industry? If yes, we want to hear from you!!

The Role:

An exciting opportunity has arisen for an individual with excellent technical abilities and an enthusiasm for technology to help maintain and develop our IT infrastructure at our Head Office in Henley-on-Thames, Oxfordshire (Living in Berkshire, Oxfordshire or Buckinghamshire would be preferable)

This is a truly unique opportunity for a well educated and numerate individual to gain further experience in range of applications and specifically RFID in a unique growth industry. While training will be provided any previous experience or relevant skills will be an advantage.

The role will involve taking direction from Management on key projects and making those projects your own.

Absolute fluency in English is required; an additional European language such as French, Dutch, German or Spanish would be useful. This role offers fantastic opportunity to utilise your skill set and make a real contribution to the future success and direction of our business.

Essential Criteria:

You will be highly organised, self motivated and a real team player who is able to work under pressure. You will have a flexible attitude and 'can do' approach, coupled with some project skills experience.

Desired Criteria:

Your contribution will be to provide outstanding support & assistance on a range of systems so experience in all or any of the following would be beneficial;

- Microsoft Server 2003 administration and troubleshooting
- Active Directory administration and troubleshooting
- Microsoft Exchange 2003 administration and troubleshooting
- Microsoft Server 2000 administration and troubleshooting
- Microsoft SQL Server administration and troubleshooting
- MySQL Administration and troubleshooting

A working knowledge of Visual Basic and Java would be an advantage together with knowledge of routers, firewalls, switches, DNS, DHCP, backups, antivirus, spam and spyware prevention.

As some driving and travel may be required a current passport and driving license will be needed.

Continued.....

Benefits:

The continuing desire to maintain our competitive edge brings with it the need to constantly support, coach and develop our people. Regular performance development reviews combined with ongoing training and the desire to promote internally offer the career solution to our ambitious staff. We do our utmost to ensure that working at Dalton's is as rewarding as it is enjoyable and challenging. As such, our benefits package includes all the elements you'd expect from a successful business including travel opportunities.

Our Company:

Dalton was established in 1948 and is one of the world's leading manufacturers of animal identification solutions. We produce products to assist traceability, disease control and animal welfare for livestock, wildlife and marine research.

We operate in over 40 countries around the world through wholly owned subsidiaries and licensed distributors. (see www.daltonid.com)

In an ongoing commitment to being an employer of choice, we are committed to employing and developing talented and creative people who thrive on working in a challenging and fast paced environment.
